LIFE SCIENCES MARKET INTEL REPORT

WHAT WE'RE READING THIS MONTH

1

New Jersey biopharmas take pledge to give employees paid time off for participating in clinical trials

2

Majority of temps are 35 or older

3

32% of workers say they've experienced burnout

4

Salary pressure is a top challenge for smaller firms

94%

of life sciences CEOs expect their workforce to grow over the next 3 years @

77%

The share of chief executives who expect the global economy to improve in the first half of next year !

61%

of firms require minimum number of days in office #

33%

of candidates backed out after receiving a job offer last quarter (**not GForcers though!**) This is still down from 49% in the same period in 2023. This is likely due to fewer opportunities in general \$

60%

of business leaders worry that they've hired the wrong person despite increased costs and time spent on talent acquisition. *GForce ensures a thorough process to alleviate its clients from these concerns!* %
